## Professional Summary

Cybersecurity and workforce development professional with 9 years of IT experience, including 7 at NAVAIR. Uses workforce data to plan training and career development while serving as the department's cybersecurity subject matter expert. Holds CompTIA Security+ and HCI Strategic Workforce Planning certifications, with an M.S. in IT (Cybersecurity).

## Professional Experience

### Human Resources Specialist, Training Specialist

Naval Air Systems Command (NAVAIR) | October 2019 - Present

- Identify and prioritize employee development needs for current and future fiscal years. Support career development, education, and training from orientation through retirement.
- Interpret workforce data to inform human capital planning, develop long-term workforce development strategies, and prioritize needs across stakeholder groups. Coach stakeholders on workforce planning.
- Serve as my group's Information System Security Officer (ISSO) and as the Workforce Development Department's primary IT point of contact and cybersecurity subject matter expert.
- Review and approve IT equipment for learning spaces. As ISSO, approve training, user accounts, and physical access for my group.
- Develop project execution plans that align with command priorities and spending timelines. Oversee logistics, administration, and budgeting, evaluate results, and adjust plans as needed.
- Assign tasks and balance workloads based on workflow demands and team members' skill levels.

### Systems Administrator

Smartronix/Jacobs (Contractor) | March 2019 - October 2019

- Coordinated campus wireless integration and served as a liaison among vendors, instructors, and training specialists.
- Supported classroom training with Navy-specific, job-specific, and general-purpose software. Managed classroom schedules, equipment setup, and IT asset inventory.
- Reported IT issues, classroom procurement matters, and user feedback to management. Proposed improvements to classroom technology and operations.

### Lead IT Help Desk Student Assistant

California State University Channel Islands | June 2017 - January 2019

- Provided IT support to students, faculty, staff, and visitors. Troubleshot campus network and shared-drive access and assisted with user account management.
- Created, tracked, and resolved IT incidents through a ticketing system.
- Installed software and hardware, including PCs, printers, and Internet of Things devices.

## Education
